

## **SIGMA BETA SORORITY, INC.**

### **PRO RATA**

Pro rata was started years ago to enable all chapters to send a delegate to convention. The principle of pro rata is that every chapter will pay the same regardless of distance from the convention city.

Pro rata is figured as follows:

1. Each chapter is figured by the number of miles (round trip) from charter city to convention city (under 1,000 miles) x .30 cents per mile.
2. The chapters who are over 1,000 miles (round trip) are figured on the economy airfare from their charter city to the convention city.
3. After all chapters have been totaled, that grand total will be divided by the number of chapters present at convention. This total gives you the amount each chapter is responsible for.

i.e. If a chapter's mileage or plane fare is more than the pro rata amount – they will receive a refund. If a chapter's mileage or plane fare is less than the pro rata amount – they will pay the difference.

5. The above will result in each chapter delegate paying the same amount for transportation to the convention city.
